

Quality counts: how to best capture patient experience in IBD

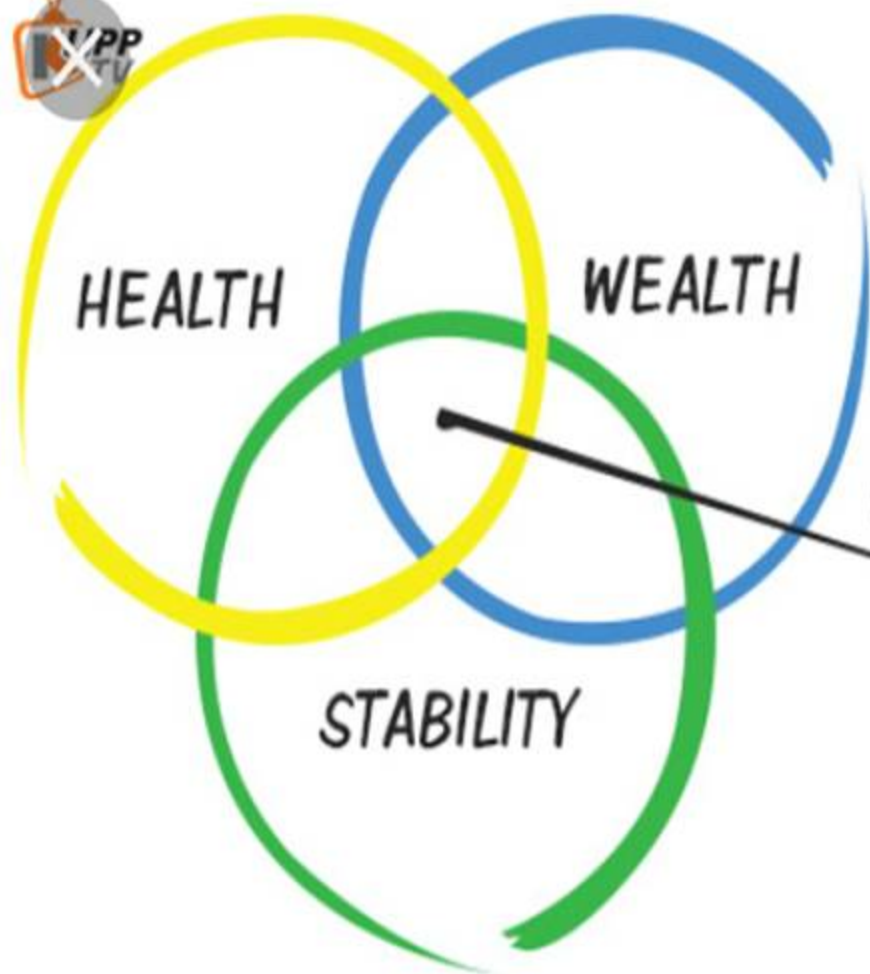

Dr Alissa Walsh
Consultant Gastroenterologist
Translational Gastroenterology Unit
Oxford

Ferring Pharmaceuticals have reviewed these slides for technical content

Disclosures

- **Dr Alissa Walsh has received research/educational grants and/or speaker/consultation fees from Abbvie, Falk, Ferring, GSK, Hospira, Janssen, Pfizer, Takeda**

Quality of Life

- The goal of therapy for IBD is to achieve and maintain disease control and thereby **optimise QoL**
- The routine use of patient-reported outcome measures (PROMs) in clinical practice is increasingly advocated as a means of **supporting patient-centred care, informing decisions** and **driving service quality**.
- **Value-driven care** relies on reporting and systematic tracking of patient-centred outcomes, allowing providers to compare meaningful outcomes for patients

What are PROMs

- PROMs are standardised, validated questionnaires intended for completion by patients in order to measure **their perceptions** of their own functional status and well-being
- PROMs have begun to find a role in national audits and registers and there is rapidly growing interest in their potential to inform individual care.
- The US Food and Drugs Administration has advocated routine inclusion of PROs as co-primary endpoints in clinical trials.

Where are we now?

- Last decade – wealth of work
- Only a limited number in clinical trials
- NONE have established a significant place in routine practice
 1. Administrative burden
 2. Lengthy multidomain questionnaires
 3. Even shortened forms are not used widely

What is needed?

- **Acceptable to both patients and healthcare teams**
- **Demonstrates added value**
- **Requires simple interpretation**
- **Needs to combine user-friendliness**
- **Properties that will help to support decisions for individual patients (relevance)**

Table 3. Domain coverage and psychometric properties of IBD-specific PROMs.

Outcome domains*	Domain coverage by IBD-specific PROMs								
	IBDQ	SIBDQ	IBDQ-9	UK-IBDQ	CUCQ-32	CUCQ-8	IBD-control	RFIPC	IBD-DI
Overall change in symptom status	Partially	No	Partially	No	No	No	Yes	No	No
Abdominal pain / discomfort	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Bowel habit	Yes	No	Yes	Yes	Yes	No	Indirectly	No	Yes
Rectal bleeding	Yes	No	No	Yes	Yes	No	Indirectly	No	Yes
Tenesmus	Yes	Yes	No	Yes	Yes	No	Indirectly	No	No
Night-time bowel movement / leakage	Indirectly	No	No	No	Yes	Yes	Yes	No	Indirectly
Faecal incontinence	Yes	No	No	Yes	Yes	No	Indirectly	Yes	No
Perianal fistula / discharge / pain	No	No	No	No	No	No	Indirectly	No	No
Unintentional weight change	Yes	Yes	No	No	No	No	No	No	No
Health-related QoL	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Fatigue and energy	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Emotional health	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Limitations to usual ADL	No	No	No	Yes	Yes	No	Indirectly	No	Yes
Work/education productivity	Yes	No	No	Yes	Yes	No	Yes	Partially	Yes
Psychometric properties by IBD-specific PROMs									
Psychometric properties	IBDQ	SIBDQ	IBDQ-9	UK-IBDQ	CUCQ-32	CUCQ-8	IBD control	RFIPC	IBD-DI
Test-retest reliability [= reproducibility]	High	High	High	High	High	High	High	High	Med
Reliability – internal consistency	Med	Med	Med	Med	High	High	High	High	High
Content validity	High	High	High	High	High	High	High	High	High
Construct validity	Med	Med	Med	Med	High	High	High	High	High
Responsiveness [ability to detect change]	Med	Low	Low	Med	Unknown	Unknown	High	Low	Unknown

*Outcomes preliminarily selected by Working Group for inclusion within the Symptoms, Function, and Quality of Life domain.

Which one to choose?

- **Speaking the same language is important**
- **Comprehensive, available for free, practical, validated**

Let's focus on IBD Control

Table 3. Domain coverage and psychometric properties of IBD-specific PROMs.

Outcome domains*	Domain coverage by IBD-specific PROMs							IBD-control	RFIPC	IBD-DI
	IBDQ	SIBDQ	IBDQ-9	UK-IBDQ	CUCQ-32	CUCQ-8

The IBD-Control Questionnaire

Inflammatory bowel disease

6
OPEN ACCESS

ORIGINAL ARTICLE

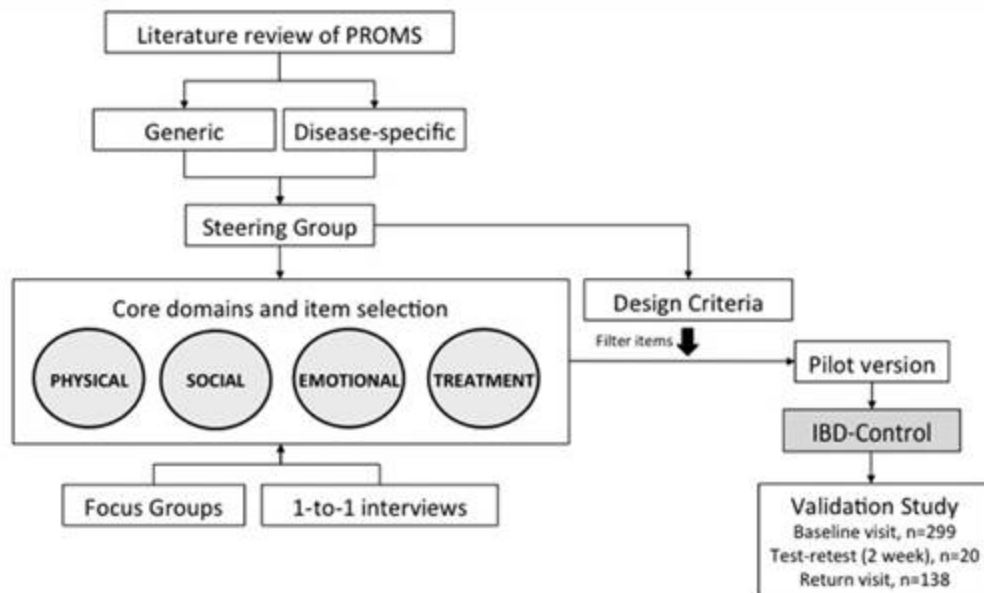

Development and validation of a rapid, generic measure of disease control from the patient's perspective: the IBD-Control questionnaire

Keith Bodger,^{1,2} Clare Ormerod,^{1,2} Daniela Shackcloth,² Melanie Harrison,² on behalf of the IBD Control Collaborative

GUT

How might it impact on clinical practice in the foreseeable future?

- ▶ In routine practice, IBD-Control has potential to provide patients and healthcare teams with a practical means of capturing simple but reliable outcome data in a standardised and easily interpretable form.
- ▶ The strong measurement properties suggest potential for use in clinical studies, particularly in long-term or large-scale trials, surveys or registries where its minimal user and administrator burden will favour serial capture of PROM data in routine settings.

The screenshot shows the IBD-Control questionnaire interface. It features a title "IBD Control" and a list of questions with Likert scale options (Yes, No, Not sure). The questions are:

- How often have you been bothered by the past few weeks?
 - How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?
- Over the past 2 weeks, how your overall symptoms have getting worse, getting better or not changed?
 - How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?
- Over the past 2 weeks, did you?
 - How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?
- How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?
- How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?
- How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?
 - How much trouble it is able to control your IBD?

IBD Control-8 Score

1 Do you believe that:

- | | Yes | No | Not sure |
|---|--------------------------|--------------------------|--------------------------|
| a. Your IBD has been well controlled in the past <i>two weeks</i> ? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| b. Your <i>current treatment</i> is useful in controlling your IBD? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| (If you are not taking any treatment, please tick this box <input type="checkbox"/>) | | | |

3 In the past 2 weeks, did you:

- | | Yes | No | Not sure |
|---|--------------------------|--------------------------|--------------------------|
| a. Miss any planned activities because of IBD?
<small>(e.g. attending school/college, going to work or a social event)</small> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| b. Wake up at night because of symptoms of IBD? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| c. Suffer from significant pain or discomfort? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| d. Often feel lacking in energy (fatigued)
<small>(by 'often' we mean more than half of the the time)</small> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| e. Feel anxious or depressed because of your IBD? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| f. Think you needed a change to your treatment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

- Responses to eight questions, each item allocated a score of zero, one or two
- Range: 0-16 (Zero = worst possible control; 16 = best possible control)

Why choose IBD Control?

- **100% (20/20) agreement for adoption of this index by the ICHOM IBD working group**
- **Free**
- **Captures disease control from patient's perspective**
- **Generic language**
- **Measures themes which all patients with IBD can identify**
- **Less than 1 minute: Practical and feasible**
- **Adopted by the UK IBD Registry**
- **Translated into other languages**

IBD-Control-8 Score

IBD-Q (32 item)

Physician Global Assessment

EQ-5D (Utility)

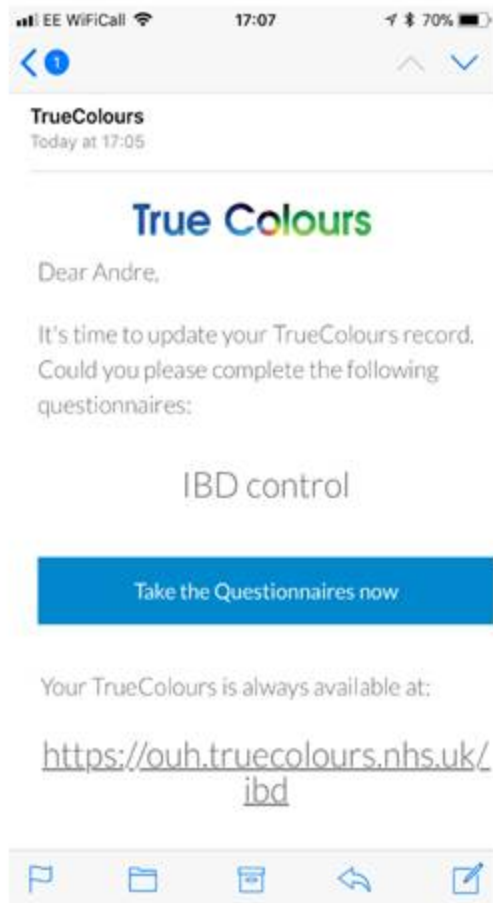

ROC for 'quiescent disease'

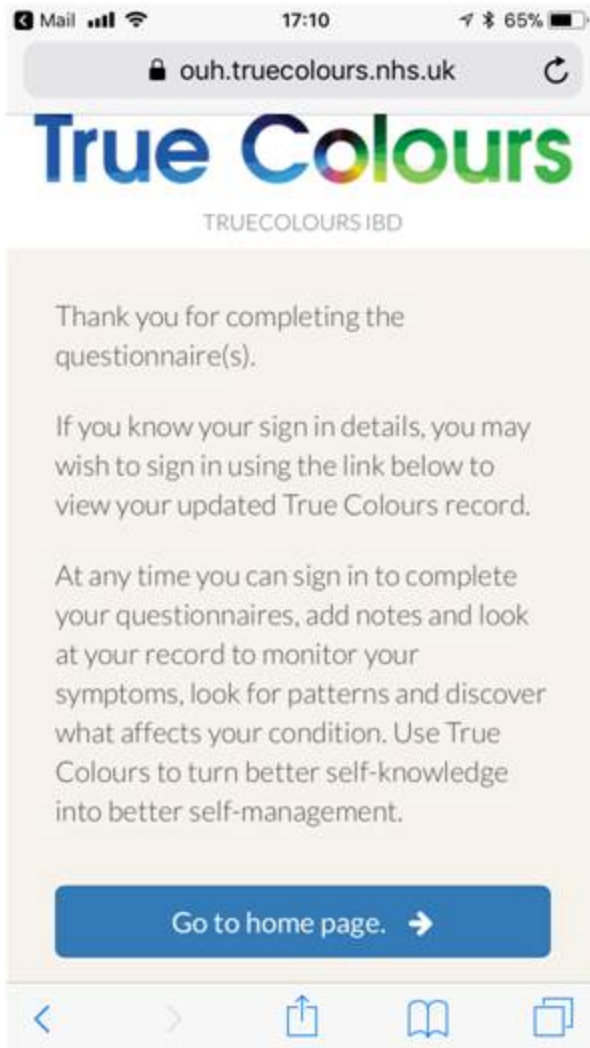

Why not do the IBDQ?

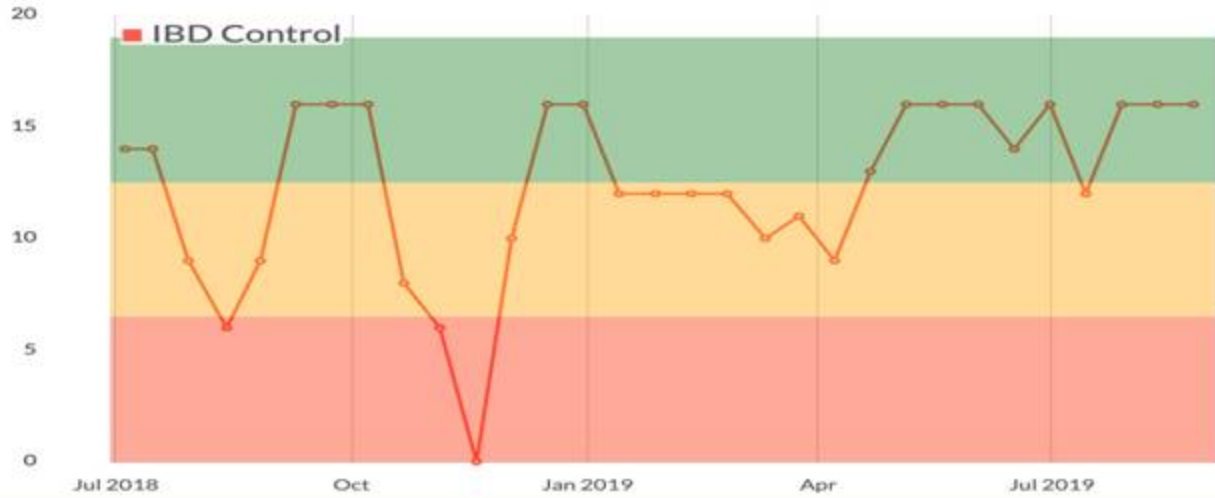

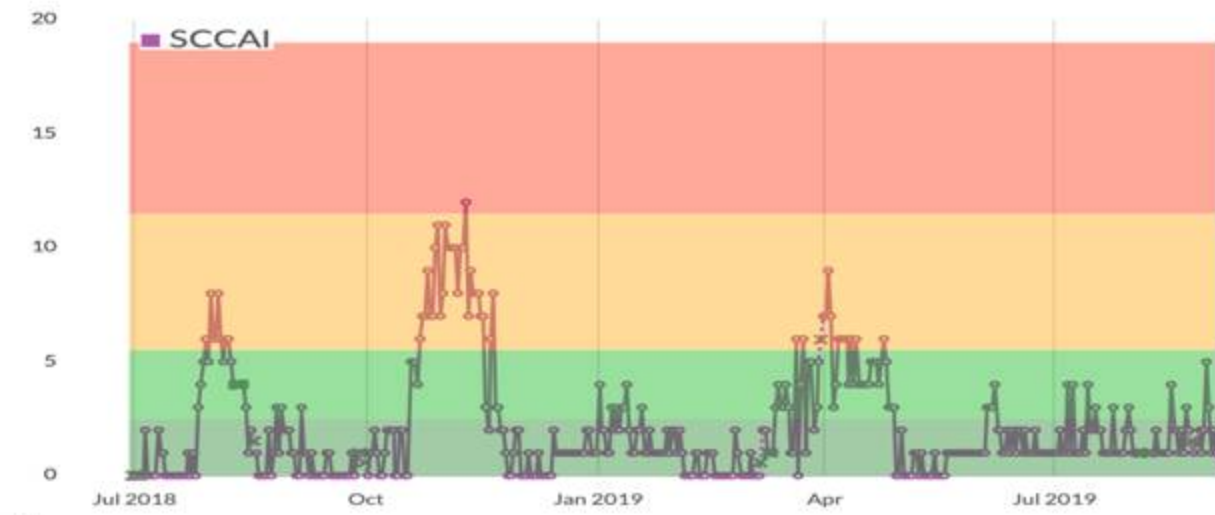

- IBDQ is the best established.....however, has failed to embed itself in clinical practice
 - Length
 - Need for a licence

So how do we do it?

Summary

IBD Control

Inflammatory Bowel Disease Control Questionnaire

1. Do you believe that

- | | | | |
|--|--------------------------|--------------------------|--------------------------|
| a. Your IBD has been well controlled in the past two weeks? | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| b. Your current treatment is useful in controlling your IBD? | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
- (If you are not taking any treatment, please tick this box)

2. Over the past 2 weeks, have your bowel symptoms been getting worse, getting better or not changed?

- | | | |
|--------------------------|--------------------------|--------------------------|
| Better | No change | Worse |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

3. In the past 2 weeks, did you:

- | | | | |
|---|--------------------------|--------------------------|--------------------------|
| a. Miss any planned activities because of IBD?
<small>(e.g. attending school/college, going to work or a social event)</small> | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| b. Wake up at night because of symptoms of IBD? | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| c. Suffer from significant pain or discomfort? | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| d. Often feel lacking in energy (fatigue)?
<small>(by what we mean here is that half of the time)</small> | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| e. Feel anxious or depressed because of your IBD? | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| f. Think you needed a change to your treatment? | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

4. At your next clinic visit, would you like to discuss:

- | | | | |
|---|--------------------------|--------------------------|--------------------------|
| a. Alternative types of drug for controlling IBD | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| b. Ways to adjust your own treatment | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| c. Side effects or difficulties with using your medicines | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| d. New symptoms that have developed since your last visit | Yes | No | Not sure |
| | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

5. How would you rate the OVERALL control of your IBD in the past two weeks?

Please draw a vertical line (|) on the scale below

Worst possible control	<input style="width: 100%; height: 20px;" type="text"/>	Best possible
------------------------	---	---------------

Bodger *et al*, Gut 2014;63:1092-1102

Summary

- QoL is important and useful
- Encourage use in routine practice
- If you want to collect however have not made a choice, → choose IBD Control
- Reflect on electronic capture

Thank you
